

University of Toronto, Department of Psychology
PSY323H1 S – Sex Roles and Behaviour

Course Syllabus, January-April 2025, LEC0101

Lecture Time and Location: Mondays from 12:10-3pm EST in **RW 143**. RW = Ramsay Wright Laboratories at 25 Harbord Street.

Delivery: Lectures are held **in-person**. Lectures will be voice recorded. The voice recording and slides will be posted within 2 days after the lecture; I will try to (and usually can) post slides prior to lectures. Slides can be downloaded, but please do not download voice recordings. *Slides and voice recordings are intended to supplement learning, or to help if you are unable to attend class. Thus, attending lectures and taking additional notes is highly recommended and encouraged (I love seeing you in class!).*

Instructor: Dr. Malvina N. Skorska, PhD

Office: SS 4052; SS = Sidney Smith Hall at 100 St. George Street

Email: malvina.skorska@utoronto.ca

Office Hours: Mondays 3:30pm-5pm EST (in-person); *lecture weeks only*

Tuesdays 1:30pm-3pm EST (virtual, see Quercus for Zoom info); *lecture weeks only*

Or by appointment; additional office hours will be posted as needed (e.g., during exams)

How to Get in Touch

-Please visit me in office hours for any questions. Office hours (both in-person and virtual) are drop-in, first-come, first-served. Apologies in advance for any waiting that occurs.

-The discussion board on Quercus is for questions regarding course content and course components (i.e., questions and answers that all students could benefit from). I have set up separate discussions for various components of the course, as well as a miscellaneous discussion. I will try my best to respond within 2-3 business days. Students are welcome to respond as well! *-I will not be checking the Quercus inbox. Also, Quercus automatically notifies students of new announcements or other updates via email. Please do not reply to these notifications because I do not receive these replies.*

-Email is the preferred way to contact myself, Ruth, or Seohee outside of the discussion board and office hours for any other questions, including personal ones.

-Please contact Seohee Han (the Course Coordinator) at seohee.han@mail.utoronto.ca to submit a request for an assignment or paper extension or for missing a term test, along with accompanying documentation.

-Please contact Ruth Tran (the Teaching Assistant) at ruth.tran@utoronto.ca with questions about assignments, papers, or grading, which will mostly be completed by Ruth. Office hours are by appointment only for Ruth.

-Please ensure emails are from a University of Toronto e-mail address and contain the course code in the subject line or message content. Please allow up to 2 business days for a response. If you do not hear back after 3 days, please send your email again. We do not regularly check email during the evenings, weekends, or holidays. *Emails regarding information in the course outline, posted on Quercus, or regarding information easily found elsewhere, will generally not be answered.*

Course Description

The goal of this course is to critically examine sex and gender. We will discuss similarities and differences between individuals of varying sexes and genders. We will explore how sex and gender research occurs, some components of gender (e.g., identity, expression), and how sex and gender develop. We will also examine gender stereotypes, power, sexism, and discrimination. Students will be expected to critically evaluate theories and research on sex and gender in areas such as: personality, cognitive abilities, socialization, work, and health (physical and psychological). This course will consider both physiological and cultural factors in the study of sex and gender. You will also improve the following skills: critical thinking, research, verbal and written communication, time management, working in a team, and receiving constructive feedback.

Prerequisites

Please ensure that you have met *all* prerequisites listed in the Psychology section of the A&S Calendar (<https://artsci.calendar.utoronto.ca/section/Psychology>) for this course. If you lack any prerequisites, you will be removed. No waivers will be granted.

Prerequisite: PSY201H1/ ECO220Y1/ EEB225H1/ GGR270H1/ IRW220H1/ POL222H1/ SOC202H1/ STA220H1/ STA238H1/ STA248H1/ STA288H1/ ECO220Y5/ PSY201H5/ STA215H5/ STA220H5/ PSYB07H3/ STAB22H3/ STAB23H3/ STAB57H3, and one of PSY210H1/ PSY210H5/ PSYB20H3, or PSY220H1/ PSY220H5/ PSYB10H3/ SOC213H1, or PSY230H1/ PSY230H5/ PSYB30H3, or PSY240H1/ PSY240H5/ PSYB32H3

Exclusion: PSY317H5/ PSYD18H3

Required Textbook

Bosson, J. K., Buckner, C. E., & Vandello, J. A. (2022). *The psychology of sex and gender* (2nd edition). Sage Publications, Inc. ISBN: 9781544393995

The textbook can be purchased from the University of Toronto Bookstore (<https://www.uoftbookstore.com>), which offers many options of print or virtual. Choose whatever option you are most comfortable with so long as you have a copy of the textbook. If there are any additional electronic resources they will not be used during the course—feel free to use them on your own if you would like additional study tools.

The direct link for purchasing the textbook is: <https://www.uoftbookstore.com/adoption-search-results?ccid=5906263&itemid=39199>

I recommend not purchasing any editions prior to the 2nd as they may be missing important testable content. If you purchase an older edition, you are responsible for any differences.

Any additional readings/media will be available on Quercus.

Evaluation Scheme

Item	Date (all in 2025)	Weight
Term Test	February 3, in-class from 12:10-3pm	25%
Media Paper	March 10, due on Quercus at 11:59pm	25%
Group Presentation	Group presentation dates are throughout the term from February 24 to March 31 (except not on March 10), in-person during the second half of class. Two groups present during each class, except for the last class where there will be three group presentations. *Group, presentation date selected by January 20 at 11:59pm *Papers will be released 3 weeks ahead of presentation date *Slides due by 12:10pm on date of presentation on Quercus *Group member contribution evaluations due by March 31 at 11:59pm	20%
Final Exam	TBD, written during Final Examination period	30%

Last Date for Withdrawal without Academic Penalty: March 10, 2025. Grades from the term test will be posted on Quercus no later than February 28, 2025.

Term Test and Final Exam

The term test and final exam will include multiple choice, fill-in-the-blank, short answer, and long answer questions.

Most questions are not intended to assess recognition of isolated specific facts. Instead, most questions are intended to directly assess your *understanding* of the course material, and your ability to solve problems related to that material (i.e., to apply the material outside of class). You will still need to learn material introduced in the course, but to do well on the term test and final exam you will also need to understand the meaning and importance of the material.

Important points about the term test and final exam:

- The term test will focus on content taught since the start of the course until the term test. The final exam will focus on content taught since the term test (i.e., new content), but early content will still need to be known as the later content builds on earlier content.
- The term test and final exam will include material from lectures (whether it is voice recorded or not), textbook, readings, and any other materials covered and assigned during the course. **The final exam will also include content from group presentations.**
- The term test and final exam are in-person, are not open-book, are not collaborative, and there is no use of electronic devices (e.g., cell/smart phones).
- Further instructions and practice questions will be available on Quercus.

The term test will be held during class time and will take about 2 hours to complete. You will be given the full 2 hours and 50 minutes to complete, if needed. There is no lecture on the day of the term test. Term test scores will be posted approximately 2 weeks after the term test date.

The final exam will be held during the Final Examination period and will be scheduled by A&S. The final exam should take about 2 hours to complete, and you will have 3 hours to complete. More details will be provided once available. Final exam scores will be made available according to A&S policy.

Quercus

This course uses the University's learning management system, Quercus, to post information about the course. This includes posting readings and other materials required to complete class activities and course assignments, as well as sharing important announcements and updates. The site is dynamic and new information and resources will be posted regularly as we move through the term, so please make it a habit to log in to the site on a regular, even daily, basis. Note, however, that I will not respond to messages sent via the Quercus inbox.

Special note about grades posted online: Please also note that any grades posted are for your information only, so you can view and track your progress through the course. No grades are considered official, including any posted in Quercus at any point in the term, until they have been formally approved and posted on ACORN at the end of the course. Please contact me as soon as possible if you think there is an error in any grade posted on Quercus.

Course Policies

Late or Missed Assignment

Assignments are submitted on Quercus (online) only. A late assignment submission will be deducted at 10% per calendar day (including weekends). *No extensions* will be possible except under certain circumstances outlined in the course policies below, with accompanying documentation. A missed assignment will result in a grade of 0. No late assignments will be accepted after March 24, 2025, at 11:59pm, unless arrangements have been made with me.

There is an automatic 24-hour window where no late penalties will be applied if submitted 24-hours after the due date. Late penalties will apply after this 24-hour window. The media paper is due March 10, 2025 at 11:59pm. Therefore, the 24-hour late-penalty-free window is until March 11, 2025 at 11:59pm. If the assignment is submitted after that, the late penalty will apply. The 24-hour window does not apply to extension requests that are granted, including those for accessibility accommodations.

Missed Group Presentation

Students have no more than one week from the day that they missed the group presentation to contact me and provide me with documentation for missing it. If your request is approved, you will be required to submit a video recording of your part of the group presentation, as well as the work done (e.g., research papers, slides, any written summaries) reflecting your contribution to the group presentation. You will also submit peer contribution evaluation forms. If your request is not approved or not submitted within the time frame indicated above, the missed group presentation will result in a grade of 0.

Missed Term Test

Students have no more than one week from the day that they missed a term test to contact the course coordinator and provide documentation for missing it. If your request is approved, the weight of the missed term test will be redistributed equally between the media paper and the final exam. There is no make-up test available. If your request is not approved or not submitted within the time frame indicated above, a missed term test will result in a grade of 0.

Missed Final Exam

Final exams that are not written during the scheduled time will be considered missed and given a grade of 0. Please file a petition for a deferred exam with your College Registrar's office if you miss the final exam.

Missed Classes

If you miss class for any reason, you are responsible for making up the missed material. The teaching assistant, course coordinator, and I will not re-teach the material from the class you missed. Please listen to the voice recordings, connect with a peer from the class for notes, and consult the textbook and other readings to make up the missed material.

Specific Medical Circumstances

If you become ill and it affects your ability to do your academic work, consult the course coordinator right away. You will be asked to provide documentation in support of your specific circumstances. This documentation can be an Absence Declaration (via ACORN) or the University's Verification of Student Illness or Injury (VOI) form. The VOI indicates the impact and severity of the illness, while protecting your privacy about the details of the nature of the illness. If you cannot submit a VOI due to limits on terms of use, you can submit a different form (like a letter from a doctor), as long as it is an original document, and it contains the same information as the VOI (including dates, academic impact, practitioner's signature, phone and registration number). For more information on the VOI, please see <http://www.illnessverification.utoronto.ca>. For information on the Absence Declaration Tool for A&S students, please see <https://www.artsci.utoronto.ca/current/academics/student-absences>.

If you get a concussion, break your hand, or suffer some other acute injury, please register with Accessibility Services as soon as possible. If an absence extends beyond 7 consecutive days in the future (from the date declared in ACORN or submitted in other documentation), connect with your College Registrar. They can provide advice and assistance reaching out to instructors on your behalf.

Accommodation for Personal Reasons

There may be times when you are unable to complete course work on time due to non-medical reasons. If you have concerns, speak to me, the course coordinator, or to an advisor in your College Registrar's office; they can help you to decide if you want to request an extension or other forms of academic consideration. They may be able to email your instructors directly to provide a College Registrar's letter of support and connect you with other helpful resources on campus.

Religious Accommodations

As a student at the University of Toronto, you are part of a diverse community that welcomes and includes students and faculty from a wide range of cultural and religious traditions. For my part, I will make every reasonable effort to avoid scheduling tests, examinations, or other compulsory activities on religious holy days not captured by statutory holidays. Further to University Policy, if you anticipate being absent from class or missing a major course activity (such as a test or in-class assignment) due to a religious observance, please let me know as early in the course as possible, and with sufficient notice (at least two to three weeks), so that we can work together to make alternate arrangements.

Students with Disabilities or Accommodation Requirements

Students with diverse learning styles and needs are welcome in this course. If you have an acute or ongoing disability issue or accommodation need, you should register with Accessibility Services (AS) at the beginning of the academic year by visiting <https://studentlife.utoronto.ca/departments/accessibility-services/>. Without registration, you will not be able to verify your situation with your instructors, and instructors will not be advised about your accommodation needs. AS will assess your situation, develop an accommodation plan with you, and support you in requesting accommodation for your course work. Remember that the process of accommodation is private: AS will not share details of your needs or condition with any instructor, and your instructors will not reveal that you are registered with AS.

Academic Integrity

All suspected cases of academic dishonesty will be investigated following procedures outlined in the [Code of Behaviour on Academic Matters](https://governingcouncil.utoronto.ca/secretariat/policies/code-behaviour-academic-matters-july-1-2019) (<https://governingcouncil.utoronto.ca/secretariat/policies/code-behaviour-academic-matters-july-1-2019>). If you have questions or concerns about what constitutes appropriate academic behaviour or appropriate research and citation methods, please reach out to me. Note that you are expected to seek out additional information on academic integrity from me or from other institutional resources. For example, to learn more about how to cite and use source material appropriately and for other writing support, see the U of T writing support website at <http://www.writing.utoronto.ca>. Consult the Code of Behaviour on Academic Matters for a complete outline of the University's policy and expectations. For more information, please see [A&S Student Academic Integrity](https://www.artsci.utoronto.ca/current/academic-advising-and-support/student-academic-integrity) (<https://www.artsci.utoronto.ca/current/academic-advising-and-support/student-academic-integrity>) and the [University of Toronto Website on Academic Integrity](https://www.academicintegrity.utoronto.ca) (<https://www.academicintegrity.utoronto.ca>).

Plagiarism Detection Tool

Normally, students will be required to submit their course essays to the University's plagiarism detection tool for a review of textual similarity and detection of possible plagiarism. In doing so, students will allow their essays to be included as source documents in the tool's reference database, where they will be used solely for the purpose of detecting plagiarism. The terms that apply to the University's use of this tool are described on the Centre for Teaching Support & Innovation web site (<https://uoft.me/pdt-faq>).

You are required to submit an electronic copy of your assignments to the plagiarism detection tool (Turnitin) via Quercus. Students who wish to opt-out of using the University's plagiarism

detection tool must notify me *no later than 5pm on January 28, 2025*. For those who wish to opt-out, I will request that the student provide *all* rough work (including, but not limited to, call numbers and/or URLs for all cited sources) when submitting their assignments.

I review all Turnitin results. If there is poor paraphrasing or other academic integrity issues, I either deduct 5-15% from the final grade of an assignment, or follow the academic integrity policies outlined above, depending on the severity of the concern. Please review the Turnitin results after assignment submission and ask any questions prior to the assignment deadline.

Use of Generative Artificial Intelligence (AI) in Course Work

Students may use artificial intelligence (AI) tools for creating an outline for an assignment or for brainstorming ideas for an assignment, but the submitted assignments and presented group work must be original work produced by the individual student alone, or by a group of students alone (in the case of the group presentation). In the final submission of an assignment, representing as one's own an idea, or expression of an idea, that was AI-generated may be considered an academic offense in this course. Students may not use AI tools for taking the term test or final exam in this course. This course policy is designed to promote your learning and intellectual development and to help you reach course learning outcomes.

In general, be cautious when using generative AI (e.g., to generate practice questions). The exam, presentation, and assignment in this course will test your understanding of the content taught in this course. Sometimes AI tools may generate responses that contain information that is (a) beyond the scope of this course, (b) not relevant to this course, or (c) incorrect/outdated.

Re-marking Policy

If you would like to contest a grade for any term work (e.g., an assignment, term test, or presentation), please wait 24 hours after grades are posted and after reviewing feedback before contacting me or the teaching assistant about the grade. After 24 hours has passed, please contact the individual who marked the item to discuss your concerns.

If after your meeting, you still wish to have the item re-marked, please submit a written request to me as soon as possible after the 24-hour waiting period and within 2 weeks after the term test grade is posted, or written assignment or feedback is returned to the class. In your request, please email me with a short paragraph detailing the grade concern, including: 1) the question(s) or part of the assignment to be re-evaluated, 2) why you provided the answer you did and where in the course materials you learned this content, and 3) why you think the grade is incorrect or incomplete and what in the course materials would support your request. Only reasonable and justified concerns will be considered, and all decisions are final.

If a re-marking is granted, the student accepts the resulting mark as the new mark, whether it goes up, down, or remains the same.

Note that this policy applies to work graded during the term. Please contact your College Registrar for appeals regarding the final exam held during the Final Examination period.

Grading and Calculating Final Grades

The teaching assistants and I work hard to ensure class work is graded fairly and thoughtfully. I use grading rubrics and follow the grading scheme provided by the Faculty of Arts and Science (see <https://artsci.calendar.utoronto.ca/academic-record#grading>).

When calculating grades, I use the same rules for all students. I round grades to the nearest whole number using standard rounding rules. For example, 79.0-79.4 is rounded to 79 and 79.5-79.9 is rounded to 80. I do not offer extra credit assignments and do not re-mark term work outside of the re-marking policy indicated above. I will not modify grades to pass or to achieve a certain grade in the class (e.g., to meet cut-offs for graduate school applications). If you are aiming for a specific grade, please plan proactively to achieve such a grade.

Course Materials, including Lecture Notes

Course materials are provided for the exclusive use of enrolled students. These materials should not be reposted, shared, put in the public domain, or otherwise distributed without the explicit permission of me (the instructor). These materials belong to me (your instructor), the University, and/or other sources depending on the specific facts of each situation and are protected by copyright. Students violating these policies will be subject to disciplinary actions under the Code of Student Conduct.

Lecture Recording and Sharing (Download and Re-use Prohibited)

This course, including your participation, will be voice recorded and will be available to students in the course for listening remotely and after each session. Course voice recordings and materials belong to me (your instructor), the University, and/or other sources depending on the specific facts of each situation and are protected by copyright. Do not download, copy, or share any course or student materials or recordings without my explicit permission. For questions about the use of voice recordings, please contact me.

Students who do not wish their voice to be recorded on the lecture recordings can ask questions during the breaks or after class. The discussion board on Quercus and office hours are also options for asking questions.

In-Class Student Recording of Course Content

Students may not create audio recordings of classes with the exception of those students requiring an accommodation for a disability, who should speak to me prior to beginning to record lectures.

Students creating unauthorized audio recording of lectures violate an instructor's intellectual property rights and the Canadian Copyright Act. Students violating this agreement will be subject to disciplinary actions under the Code of Student Conduct.

Course videos may not be reproduced or posted or shared anywhere other than the official course Quercus site and should only be used by students currently registered in the course. Because voice recordings and lecture slides will be provided for all lectures, students may not create additional photo, audio, or video recordings without written permission from me. Permission for such recordings will not be withheld for students with accommodation needs.

Equity, Diversity, and Inclusion

The University of Toronto is committed to equity, human rights and respect for diversity. All members of the learning environment in this course should strive to create an atmosphere of mutual respect where all members of our community can express themselves, engage with each other, and respect one another's differences. U of T does not condone discrimination or harassment against any persons or communities.

Respectful Conduct

Your conduct in the course is expected to follow the Student Code of Conduct and the Code of Behaviour on Academic Matters (<https://governingcouncil.utoronto.ca/secretariat/policies/code-student-conduct-december-13-2019> and <https://governingcouncil.utoronto.ca/secretariat/policies/code-behaviour-academic-matters-july-1-2019>).

This course will discuss and address some topics that are sometimes controversial, including the following: sex and gender, differences between individuals and groups, mental health concerns, and sexuality. Everyone should expect these topics to be discussed in the lectures and everyone should also be respectful of others in discussing them. Some ideas related to the above topics may conflict (or appear to conflict) with some of our prior beliefs, but our task in this course is to consider carefully the evidence that can help us to evaluate those ideas. In discussing these topics, however, we must also take care to be respectful of others—including all persons, as well as other members of the course—and especially to avoid using crude or derogatory language.

Departmental Guidance for Undergraduate Students in Psychology

The Department of Psychology recognizes that, as a student, you may experience disruptions to your learning that are out of your control, and that there may be circumstances when you need extra support. Accordingly, the department has provided a helpful guide (<https://www.psych.utoronto.ca/current-program-students/guidance-undergraduate-students-psychology>) to clarify your and your instructor's responsibilities when navigating these situations. This guide consolidates Arts & Science Policies for undergraduate students in one place for your convenience. As an instructor in the department, I will frequently consult with these recommendations when providing you with support, and I recommend that you also consult it to learn more about your rights and responsibilities before reaching out to me.

Miscellaneous

Cell Phones and Laptop Usage

Technology can support student learning, but it can also become a distraction. Research indicates that multi-tasking during class time can have a negative impact on learning. Out of respect for your fellow students in this class, please refrain from using laptops or mobile phones for purposes unrelated to the class. Do not display any material on a laptop which may be distracting or offensive to your fellow students.

I will sometimes ask you to participate in class activities during lecture using a smart phone or laptop via Slido (www.slido.com). Participation is anonymous, voluntary, and will not impact grades. Further instructions will be provided in class.

Course Performance

Some advice for succeeding in this course is to keep up with the work. This means attending the lectures, doing the readings, completing the paper and presentation on time, and studying for (and showing up for) the term test and final exam. The only way to get a good mark in this course is to perform well on the course components; marks will not be based on how much a student wants or “needs” a good mark, or other reasons. Keep in mind that, because your mark in this course is an evaluation of your performance on the course components, it is not an evaluation of your worth as a human being or even of your dedication as a student or necessarily of your intellectual ability.

SCHEDULE OF LECTURES AND DEADLINES

note: lectures are in-person on MONDAYs 12:10-3pm (RW 143)

Week	Date	Topic	Reading	What's due? <i>...on Quercus unless otherwise specified</i>	Presentation Groups
1	Jan 6	Introducing sex and gender	Chapter 1	--	--
2	Jan 13	Studying sex and gender	Chapter 2	--	--
3	Jan 20	Nature and nurture of sex and gender	Chapter 3	Select groups and presentation date (11:59pm under People)	--
4	Jan 27	Gender development	Chapter 4	--	--
5	Feb 3	TERM TEST	<i>Content from weeks 1-4</i>	--	--
6	Feb 10	Gender stereotypes, power, sexism, and discrimination Media article exercise in class	Chapters 5 and 6	--	--
	<i>Feb 17</i>	<i>No class, reading week</i>			
7	Feb 24	Cognitive abilities and aptitudes, language, communication, and emotion	Chapters 7 and 8	** (see below for ** explanation, applies to weeks 6-11)	1, 2
8	Mar 3	Sexual orientation and sexuality	Chapter 9	**	3, 4
9	Mar 10	Interpersonal relationships	Chapter 10	Media Paper Due (11:59pm under Assignments)	--
10	Mar 17	Work and home	Chapter 11	**	5, 6
11	Mar 24	Gender and health (physical and psychological)	Chapters 12 and 13	**	7, 8
12	Mar 31	Summary and reflection Exam review	Chapter 15	** Group Member Contribution Evaluations Due (11:59pm under Quizzes)	9, 10, 11
	TBD	FINAL EXAM	<i>Content from weeks 6-12</i>	--	--

****Slides Due (12:10pm under Assignments, presenting groups only)**

IMPORTANT DATES:

Lectures start for S classes:	Monday, January 6, 2025
Last day to enroll in S courses via ACORN:	Sunday, January 19, 2025
Family Day (no classes):	Monday, February 17, 2025
Winter Reading Week (no classes):	Monday, February 17, 2025 to Friday, February 21, 2025
Last day to drop S courses:	Monday, March 10, 2025
Last day of S classes:	Friday, April 4, 2025
Study days:	Monday, April 7, and Tuesday April 8, 2025
Final exams:	Wednesday, April 9 to Wednesday, April 30, 2025
Good Friday (no class or exams)	Friday, April 18, 2025

Additional Reading and Visual Media List

Chapters indicated above are from the course textbook (Bosson et al., 2022). Additional readings are those presented by members of the class and will be posted on Quercus three weeks in advance of the presentation date. By attending class on presentation days, listening to and making notes about the presentations and following discussion, you will receive enough details for the term test and final exam. Thus, the additional readings that are posted can help to fill in any gaps but are not required reading (unless you are presenting the research study).

Written Media Paper

Objective:

Select a media article that highlights an issue involving any topic related to sex or gender covered in the class. Provide a summary of the media article and identify two sides to the issue presented. Find primary research articles that support each side. Summarize and evaluate the research articles. Synthesize the research articles with the media article and reach a conclusion based on the research evidence presented for both sides of the issue. The last part of the assignment consists of a short reflection on the writing process.

Length must be no longer than 6 pages, not including title page or reference pages.

The Media Paper is to be submitted on Quercus by 11:59pm on the due date. Full instructions and the grading rubric are posted on Quercus. Grades will be posted about two weeks after the due date.

Group Presentations

Objective:

You will be working together in groups of 4-5. You will be assigned a research article related to the course content (although I am open to groups choosing their own article within the same topic area). In your group, put together a 15-minute presentation highlighting the introduction, methods, results, and discussion of the research study. Include four discussion questions and lead the class in a discussion about the article, connecting it back to content learned in the class or to other relevant topics (e.g., news stories, TV show or movie plots, social media content, memes, theories learned in other classes etc.). Include two multiple choice questions designed by members of the group related to the study and present them to the class. Group member contribution evaluations are submitted as well.

Presentation slides are to be submitted on Quercus by 12:10pm on your scheduled presentation date (from February 24, 2025 to March 31, 2025). Pick your group and presentation spot by January 20, 2025 at 11:59pm. Group member contribution evaluation forms are optional and are due by March 31, 2025 at 11:59pm for those who would like to submit them (e.g., there are major workload concerns).

Full instructions and the grading rubric are posted on Quercus. Grades will be posted about two weeks after the final presentation date at the latest.

Resources

Mental Health and Well-being

As a student, you may experience challenges that can interfere with learning, such as strained relationships, stress, or anxiety. Your mental health is important. Throughout university life, there are many experiences that can impact your mental health and well-being. As a University of Toronto student, you can access free mental health and wellbeing services at Health & Wellness (<https://studentlife.utoronto.ca/department/health-wellness/>) such as same day counselling, brief counselling, medical care, skill-building workshops, and drop-in peer support. You can also meet with a Wellness Navigation Advisor who can connect you with other campus and community services and support. Call the mental health clinic at 416-978-8030 ext. 5 to book an appointment or visit <https://uoft.me/mentalhealthcare> to learn about the services available to you.

You can also visit your College Registrar to learn about the resources and supports available: <https://www.artsci.utoronto.ca/current/academic-advising-and-support/college-registrars-offices>

If you're in distress, you can access immediate support: <https://uoft.me/feelingdistressed>

Writing

As a student at the University of Toronto, you are expected to write well. The university provides its students with a number of resources to help them achieve this. For more information on campus writing centres and writing courses, please visit <http://www.writing.utoronto.ca/>.

Additional Resources

For resources related to safety, including experiences of sexual assault or sexual harassment, visit <https://safety.utoronto.ca/#ui-id-7>.

For resources related to physical wellbeing, visit <https://kpe.utoronto.ca/welcome-sport-rec-u-t>.

For resources offered by the library, which include writing, citing, workshops, and research, visit <https://oneseach.library.utoronto.ca/studying-and-learning>.

The Course Resources module on Quercus offers additional resources for writing, studying, research, and examples of student papers and their grading.
