General notes about assessments and grades:

As with your other courses, grades are based on the UofT grading policy, which you can review here: <https://advice.writing.utoronto.ca/general/grading-policy/>

Please note that we (i.e., your TA and I) understand that grades are important to you, and we do our very best to grade everything fairly and provide as much feedback as possible about what you have done well and how you could improve. However, if you ever want or need clarification on this feedback, please do not hesitate to request a meeting with the person who graded your work (see page 3-4 of this document). Finally, all grades will be posted within 2 weeks of the date the assignment or test was submitted or taken, except late work and final term paper and test. If you wish to contest a particular grade, students have a maximum of two weeks from the time they received the grade to contact the course instructor or the TA and ask for a re-grade. The re-grade can result in the grade being increased, remaining the same, or even being lowered after the reassessment.

### Late Assessment Submissions Policy

Late Work Policy: You must use the Absence Declaration tool on ACORN to declare an absence if you require consideration for missed or late academic work (recording each day of your absence as soon as it begins, up until the day before you return to classes or other academic activities). If you have already used it once, you cannot use it again so please use other documentation as outlined below under Specific Medical Circumstances. After doing so, contact your instructor(s) to request the academic consideration you are seeking. If no extension has been granted, all late submissions will be penalized 10% (of the assignment grade) per 24hrs (or part thereof) after the due date and time (excluding weekends).
